EASTERN LINES RAISE WAGES

New York Central Boosts Pay of Nearly All Employees.

BIG INCREASE IN YEAR'S PAYROLL

Will Mean Added Expense of \$2,500,000 Annually to Railroad—Strike Vote Ordered on Lake Erie Road.

NEW YORK, April 2.—There was real "solid" today as the New York Central men picked up today. Today, after a special meeting of directors, a general order was issued increasing by 7 per cent the pay of all employees on the New York Central lines east of Buffalo who now earn \$200 a month or less. Vice President C. F. Daley said that the directors of the Lake Shore & Michigan Southern, the Michigan Central and the Big Four would probably take similar action at an early date. The order goes into effect immediately.

Those employees whose demands for a wage increase are now under advisement, namely, the telegraph operators, the Brotherhood of Railway Trainmen and the Order of Railway Conductors, are not included, as a settlement with them will be reached on a separate basis. Directly affected are locomotive engineers and firemen and the entire clerical force. Yard switchmen and yard conductors receive a 3 cent an hour advance under a separate classification, in accordance with the terms of agreement recently reached through the Federal Board of Arbitration between the western railroads centering in Chicago and their yardmen.

It is estimated the general increase will cost the eastern divisions of the New York Central lines \$2,500,000 a year.

Strike Vote Ordered.
CLEVELAND, O., April 2.—A strike vote was ordered today on the Lake Erie & Western railroad by the joint committee of the Brotherhood of Railway Trainmen and the Order of Railway Conductors, whose negotiations for a new wage scale have failed. About 500 men are affected. The men are demanding an increase in salary of from 5 to 10 per cent. General Manager Moon offered a compromise increase of 8 per cent, but this was rejected. The negotiations by the same committee with the Nickel Plate system will culminate tomorrow, when General Manager Johnston will announce his decision. It is not expected that he will agree to the men's demands, which are similar to those made by the Lake Erie & Western employees.

CINCINNATI, April 2.—The committee from the Brotherhood of Locomotive Engineers had a long conference with J. Q. Van Winkle, general manager of the Big Four railroad, today. At the conclusion of the meeting it was announced that no agreement had been reached relative to the demands of the engineers for higher wages and better working conditions, but that another meeting would take place tomorrow.

Mayor Hooted Off the Stage In Pittsburgh

Chief Executive Hissed and Jeered While Trying to Speak on Graft Scandal.

PITTSBURGH, April 2.—The indignation of 4,000 citizens and of as many women over the political corruption now being unceremoniously exposed by the grand jury by countenancing confessions and denunciations of civic vice generally, was vehemently expressed last night at a mass meeting in Exposition hall. Mayor William A. Magee, who sought to address the meeting, was hooted off the stage. The resentment shown was at the chief executive's failure to clean up the red light district, delayed action on traction and other local matters. The problems and reformers, but no definite action was taken. The meeting suddenly veered from its discussion of the councilman's cases when A. Well, president of the Voters' league, made a general attack upon the mayor, who received great applause. When he had concluded, Mr. Well, who was chairman of the meeting, announced: "The mayor asks if you will hear a few remarks from him."

RAPID CITY WANTS HERD

Plan Under Way to Keep Buffalo if Government Will Buy Animals.

RAPID CITY, S. D., April 2.—(Special.)—A buffalo herd of national reputation, as an additional attraction for tourists this summer, is a strong possibility for Rapid City. Recently it was announced that "Doc" Phillips, the well known trapper and old plainsman of Fort Pierre, desired to sell his herd of 250 head, said to be the largest and best preserved herd of buffalo extant in this country. A number of this city's prominent business men at once saw the possibility for such an attraction here and entered into communication with Mr. Phillips. It is now proposed to get the government to make an appropriation to buy the herd on condition that Rapid City guarantees the place to keep them in and provides for their sustenance. Congressman Martin has taken up the question at Washington and in hopes that favorable action can be had. The local business men canvassed the situation here and have assurances that local citizens will take care of the animals should they be brought here. Ten miles west of town is a large open park surrounded by a pine grove and with running water and plenty of grass, and entirely suitable for the buffalo. Rapid City intends making a strong bid for the tourist traffic this summer and believes the herd would prove a strong drawing card.

Mission Fund Quickly Raised

Mitchell Student Who Wants to Go to South America is Provided with Necessary Money.

MITCHELL, S. D., April 2.—(Special.)—An incident of generous giving in the line of missionary work occurred this afternoon at the denominational meeting of the men of the Methodist church, which is in line with the Laymen's Missionary movement. When the subject was started by finished John E. Washburn, a university student, arose and said that he had been studying for several years with the idea that he was going abroad as a missionary, and that he would finish his university course in June, and that he would then be ready to start for South America, his objective point. Washburn said he had a conversation with Dr. Stuntz, the secretary of the Board of Foreign Missions, and the secretary informed him that he could not send him over there for a year, because the board did not have the money. It was a great disappointment to Washburn, and he told his troubles to the men of the church. It struck them as a rather peculiar thing that there was a man ready to take up the work and no way to send him. In fifteen minutes the men of the Methodist church pledged themselves to raise \$1,000 and pay it in by June 1, so that he can start for his field in South America at once.

Town of White Owl Saved from Flames

Prairie Fire in Meade County, S. D., Licks Up Vast Amount of Property.

DEADWOOD, S. D., April 2.—(Special Telegram.)—Details of the worst prairie fire in this section of the state in many years arrived here by mail this afternoon. On March 23, during a fierce gale near Opal, seventy-five miles northeast of Sturgis, in Meade county, a spark from a homesteader's shack started the flames, which swept north and west, for thirty miles, devastating everything in its path in the Buttes and Meade county border. The town of White Owl was saved by the veering of the wind. No lives are reported lost, but fifty head of cattle perished and all the homes, grain and feed in that section was destroyed. The Schlusening and Howell ranches are in ruins. The loss is very heavy to the new settlers, who will be unable to do their sharing work.

Hartwig Wins Butter Prize

Castlewood Man Given Gold Medal at Exhibit of South Dakota Dairymen.

WATERTOWN, S. D., April 2.—(Special.)—The second annual convention of the South Dakota Dairymen's and Butter Maker's association, which for the last two days has been in session in this city, closed yesterday. The meeting was very successful, and far ahead of anything of its nature ever held in the state. Carl Hartwig of Castlewood was awarded first prize, a solid gold medal, for the best tub of butter exhibited. The tub was graded at 96 per cent and Prof. C. Larson of the State Agricultural college stated that it was the best tub of butter he had ever seen, made in South Dakota. The six months' educational contest which the association has been conducting came to a close, Chris Hanson of Webster winning first prize, a solid silver table set.

Robbers Ransack Newlyweds' Home

Thieves Tie Bride and Groom to Bedposts and Then Loot the Residence.

SAN FRANCISCO, April 2.—Dr. Thomas F. Gleason and his bride of a day, with the former's sister, Miss Anita Gleason, were compelled to witness the looting of their home this afternoon, and while tied hand and foot to bedposts, they implored the two robbers to spare their wedding presents. The robbers, after gathering the silver wedding gifts in a sack, released and left the sack in the hall. When Miss Gleason answered the doorbell she was confronted by two men, who held revolvers at her head. Her screams attracted her brother and his wife. They joined her in the hallway and were also overpowered and tied to bedposts in an adjoining room. Gleason freed himself and released the two women after the robbers left.

Mt. Etna Fools The Scientists

Volcano's Action Uncertain and Experts Are Pessimistic Over Future Eruptions.

CATANIA, April 2.—Expert opinion concerning the activity of Mount Etna is pessimistic. Frank A. Perret, the assistant director of the Royal observatory on Mount Vesuvius, thinks that the volcano still contains a considerable quantity of lava and that a cessation of the eruption would probably be only temporary. Prof. Rocco, director of the Mount Etna observatory, has been forced to abandon his post after passing hours of terror there. He said tonight: "I could not stand the deafening and horrible roar of the volcano for more than one day. It would certainly drive me mad."

EDITOR AND MOTHER DEAD

Robert W. Patterson and Mother of Chicago Tribune Die Same Day.

CHICAGO, April 2.—Word was received in Chicago tonight of the death in Philadelphia of Robert W. Patterson, president of the Chicago Tribune company. By a tragic coincidence, Mrs. Julia A. Patterson, mother of Mr. Patterson, died in Chicago today, aged 57 years. Mr. Patterson was born in Chicago November 30, 1850, the son of the Rev. R. W. Patterson. Graduating from Williams college in 1871, Mr. Patterson, Jr., took up the study of law, but later gave it up to become a reporter on the Chicago Times. Later he was for more than a year on the Interior, a religious publication. Since 1875 he had been associated with the Chicago Tribune, beginning as assistant night editor and later becoming the Washington correspondent.

After serving as editorial writer and managing editor, he became, on the death of Joseph Medill, the editor-in-chief. He married Eleanor Medill, a daughter of Joseph Medill.

Mr. Patterson died just fifteen minutes after the death of his mother. He died at 8:15 p. m., eastern time, and Mrs. Patterson died at 8 p. m., central time.

PHILADELPHIA, April 2.—Robert W. Patterson's death occurred at 8:15 tonight in his room in the Bellevue-Stratford hotel, where he has been a guest for more than a month, except for several excursions to the seashore. He returned from Atlantic City last Monday and on Wednesday was stricken with apoplexy in his room. Physicians were summoned, but it was not thought that he was dangerously ill. Tonight he suffered a second and more severe stroke, dying within a few minutes. At the time of his death he was attended by two physicians and a trained nurse.

Mr. Patterson died without learning of the death of his mother, who died today in Chicago. The telegram announcing her death was received at the hotel half an hour after the death of her son. The estate of Mr. Patterson was valued at \$1,000,000. The estate of Mrs. Patterson was valued at \$1,000,000. The estate of Mr. Patterson was valued at \$1,000,000. The estate of Mrs. Patterson was valued at \$1,000,000.

PE-RU-NA RECEIVES PRAISE.

For Relieving Such Symptoms as Debility, Backache and Headache.

Mrs. Tressie Nelson, 600 N. 5th Ave., Nashville, Tenn., writes: "As Peru-na has done me a world of good I feel in duty bound to tell of it, in hopes that it may meet the eyes of some who has suffered as I did. For five years I really did not know what a perfectly well day was, and if I did not have

MRS. TRESSIE NELSON.

headache, I had backache or a pain somewhere and really life was not worth the effort I made to keep going.

"A good friend advised me to use Peru-na and I was glad to try anything, and I am very pleased to say that six bottles made a new woman of me and I have no more pains and life looks bright again."

There are a great many phases of woman's ailments that require the assistance of the surgeon. But by far the greatest number of such cases are amenable to correct medicinal treatment.

A vast multitude of women have been relieved from the ailments peculiar to their sex through the use of Peru-na as prescribed by Dr. Hartman.

He receives many letters from all parts of the country relating to subjects of vital interest to womanhood.

Of the vast multitude of women who take Peru-na only a very small percentage consider it necessary to write to the doctor at all.

While it is not affirmed that Peru-na will relieve every case of this kind, it is certainly the part of wisdom for every woman so afflicted to give Peru-na a fair trial.

Mrs. Joseph Lacelle, 124 Bronson St., Ottawa, East, Ontario, Canada, writes:

"I suffered with backache and headache for over nine months and nothing relieved me until I took Peru-na. This medicine is by far better than any other medicine for these troubles. A few bottles relieved me of my miserable, half-dead, half-alive condition."

"I am now in good health, have neither ache nor pain, nor have I had any for the past year. If every suffering woman would take Peru-na, they would soon know its value and never be without it."

Mrs. Ella Miskell, R. F. D. 2, Box 80, Scottsburg, Indiana, writes:

"I suffered for two years with catarrh in the head, having such pains in the head and face that I feared I would lose my reason. I tried every known remedy, but gradually grew worse. Nights of restlessness would succeed days of agony. After taking twelve bottles of Peru-na I am entirely well."

Runaway Auto Kills and Maims

Machine Leaves Track, Kills Three Negroes and Occupants and Kills Two Cows.

SAVTEENAH, G., April 2.—While going at a high speed on the Grand Prix race course near Savannah tonight, an automobile in which Albert M. Marshall and Harry Noye, young society men, became unmanageable, left the road and struck first a small negro girl, then a negro man and later, a negro woman who were on the sidewalk, probably fatally injuring all. Then, after killing two cows, the machine turned over, seriously injuring Noye, who was sent to a hospital. Marshall was arrested and is at the police headquarters tonight to remain until the result of the injuries of the three negroes is known.

When you want what you want when you want it, say so through The Bee Want Ad columns.

Good Finances Please Cabinet And President

Receipts for Customs and from Internal Revenue Promise to Reach High Mark.

WASHINGTON, April 2.—President Taft and his cabinet are very much pleased over the condition of the government finances, the receipts from customs and from internal revenue both promising to reach a high mark and probably exceed the estimates for the current fiscal year. The monthly treasury statements issued today show that the customs receipts for March, \$23,722,688, were the largest by far \$4,000,000 for any month since the new tariff law went into effect, while the internal revenue receipts thus far during 1910 have been \$15,000,000 more than during the corresponding period of 1909.

There was an excess of \$5,544,460 of ordinary receipts over ordinary disbursements during March. In consequence, which the deficit for 1910 now is only \$15,660,210, as against \$68,470,526 on the corresponding date last year. The treasury working balance today was \$29,567,500, the largest it has been for some time.

For the time being Secretary MacVeagh is not concerning himself with what of the issue of bonds to recoup the treasury balances in the matter of ordinary expenditures. The total balance in the general fund of the treasury is \$58,885,255. The public debt statement issued today shows a net increase in government obligations for March of \$1,795,744 and in the treasury, \$1,795,744. The total national bank circulation outstanding is \$17,234,906, an increase of \$7,236,128 during March. During the month thirty-seven banks, with a total capital of \$4,665,000, were authorized to begin business.

The exchange of the United States mint during March was valued at \$5,307,880. Coinage for the Philippine government amounted to 792,000 pesos pieces and 400,000 centavo pieces.

When you want what you want when you want it, say so through The Bee Want Ad columns.

UNION FOR CONTINUANCE OF STREET CAR STRIKE

Vote Taken Declares Against Motion to Declare End to Lockout of Carmen.

The street car strike is still on in Omaha. By a vote taken at a special meeting of the members of the striking organization, No. 28 of the Amalgamated Street Car Men's union, a proposition to call the strike off was turned down at Labor Temple last night.

"There were about 150 members present and the decision was by a majority of more than two to one," said Ted Morrow, member of the executive committee.

The union claims 552 members who have not yet returned to work for the Omaha Council Bluffs Street Railway company. Charles Lear, president, presided at the meeting last night.

OPPONENT FOR LONGWORTH

Ohio Congressman Will Have Charles Herbert Jones as Next Election.

CINCINNATI, O., April 2.—The congressman Nicholas Longworth is in opposition for renomination in the Ohio district was made apparent when it was officially announced that Charles Herbert Jones had been entered as a candidate in opposition to Longworth.

CARNEGIE VISITS PITTSBURGH

Steel King Back in Smoky City After Four Years' Absence.

MADE HONOR GUEST AT BANQUET

Speaks About Graft Scandal in Light Veil—Refuses to Aid Orchestra Scheme Until It Helps Itself.

PITTSBURGH, Pa., April 2.—Andrew Carnegie, as the retired general, was guest last night of some of the members of his former staff in the successful campaign to win pre-eminence in the steel industry. He sat with them at an exclusive dinner at the Duquesne club, exchanged reminiscences with those he knew and made the acquaintance of new leaders in steel manufacture.

The Carnegie Veterans' association arranged the banquet on the occasion of Mr. Carnegie's first visit to the city for nearly four years. Former Judge James H. Reed presided and the guest was welcomed by Colonel H. P. Bopp, John Unger, director of the research laboratory at the Carnegie mills, spoke on the Carnegie company's past and future, to which the Laird of Skibo responded with entertaining reminiscences and prophecies.

Charles M. Schwab, William P. Palmer, Alfred A. Correy, William E. Correy, Asor A. Hunt and others, comprising a party of sixty, were present to do the guest honor. Early in the day the Laird had jokingly admitted that he had missed the mark of his ambition to be a reporter, and to a party of men who besieged him at the Hotel Schenley he talked in epigrammatic fashion of many topics. He admitted his

pride in Pittsburgh and his pain in its disgrace by recent graft exposures. "They tell me some of these fellows took \$1.10 for their vote. My! oh, my! if I was going to be a thief"—but the man of millions halted his humor there. He echoed the opinion of Governor Hughes of New York that it is not in the exposure, but in the concealment of corruption that danger lurks.

Tribute to Old Friend.
In speaking of local personalities he was hearty in tributes to many old friends, especially former Mayor Guthrie. "I know him and I know his wife. A great deal depends upon the wife of a public man."

Pittsburgh's orchestra is seeking to perpetuate itself with an endowment by public subscriptions. When the matter was spoken of, Mr. Carnegie said: "I have no more to do with the Pittsburgh orchestra than with the heavenly choir, which I hope to hear soon in the near future. I would not discourage Pittsburgh by supporting its orchestra. I have often said that you can't hold a man up a ladder unless he does some climbing himself."

"I give organs to churches or help churches get organs, because I am willing to be responsible for everything they say, but I could not be responsible for all that is said from the pulpit."

For the next three days Mr. Carnegie will be busy with visits to his institutions here and on Tuesday will leave for New York. It was said tonight that he has invited nearly a score of local relatives, mostly cousins, to visit him at the Hotel Schenley Sunday afternoon.

It was learned from President William E. Correy of the United States Steel corporation after the dinner that in his remarks to the steel partners tonight he has declared the recent announcement of a probable increase in wages to the steel men as premature.

"It has not been decided upon," said President Correy, "and I cannot say that it is likely to be for some time."

Mr. Carnegie's sentiment was expressed at the dinner in these words: "My millions without the love and association of the old veterans would not be worth keeping."

Series of Forgeries Of Land Titles

Two Bogus Deeds Filed for Record in Charles Mix County, South Dakota.

SIoux FALLS, S. D., April 2.—(Special.)—What may prove to be wholesale series of forgeries is indicated by the nature of warranty deeds which were recently sent to the register of deeds of Charles Mix county, and which purported to transfer valuable farms in that county. It was discovered that the grantors in at least two of the cases have no record title and after recording the instruments Register of Deeds Patrick notified both parties who had forwarded the deeds for record that there must be some mistake, as grantors had no record title in the land.

In one case an instrument purporting to be an abstract of title was returned showing five instruments. The patent in the land was shown correctly, while the other four instruments do not appear on the records in the office of the register of deeds. This so-called abstract was typewritten and was certified to by P. S. Adams & Co., but bore no seal, and it has been discovered that no such firm of

abstracters ever did business in Charles Mix county.

In another case an instrument purporting to be a register of deeds, the certificate stating that the land rested in fee simple in one John A. McCarthy, Mr. McCarthy, it developed, never had any record title to the land involved. In this case a deed dated November 11, 1904, was returned, showing the land deeded to said McCarthy, but the grantors never held any record title to the land.

Those who have examined this instrument do not hesitate to pronounce it a clear case of forgery, although nothing is known as to the identity of the person or persons who executed it. It is feared that numerous other cases of a similar nature will develop.

RAPID CITY WANTS HERD

Plan Under Way to Keep Buffalo if Government Will Buy Animals.

RAPID CITY, S. D., April 2.—(Special.)—A buffalo herd of national reputation, as an additional attraction for tourists this summer, is a strong possibility for Rapid City. Recently it was announced that "Doc" Phillips, the well known trapper and old plainsman of Fort Pierre, desired to sell his herd of 250 head, said to be the largest and best preserved herd of buffalo extant in this country. A number of this city's prominent business men at once saw the possibility for such an attraction here and entered into communication with Mr. Phillips. It is now proposed to get the government to make an appropriation to buy the herd on condition that Rapid City guarantees the place to keep them in and provides for their sustenance. Congressman Martin has taken up the question at Washington and in hopes that favorable action can be had. The local business men canvassed the situation here and have assurances that local citizens will take care of the animals should they be brought here. Ten miles west of town is a large open park surrounded by a pine grove and with running water and plenty of grass, and entirely suitable for the buffalo. Rapid City intends making a strong bid for the tourist traffic this summer and believes the herd would prove a strong drawing card.

ST. LOUIS SYSTEM HAS ROAD

Probable that South Dakota Central Has Been Bought by Other Line.

WATERTOWN, S. D., April 2.—(Special.)—The recent report stating that the South Dakota Central railroad, a short line between this city and Sioux Falls, had been sold to the St. Louis system has received practical confirmation, though local officials in this city deny the rumor. A large number of employees in the shops at Sioux Falls have recently been discharged, and it is said that the company is getting ready to bring the general offices and repair shops to this city early this summer. For several weeks past agents of the St. Louis have been leaving mail stations along that line and going to stations on the South Dakota Central. A party of St. Louis officials passed through this city this afternoon on their way to Sioux Falls. It is expected that official announcement of the purchase will be made at a conference which will be held with Central officials.
